

Sinclair Broadcasting's plan to show the basically elongated swift boat campaign ad against Kerry two days before the election appears to be in direct violation of the FCC rules, and I would appreciate your efforts to stop them. This is a democracy, the airwaves rules were set up to protect our democracy, not demean and undermine it. Not only has the information been shown to be untrue, there is no equal time allowed for Kerry to rebut it. I believe you should do your job and tell Sinclair they are in violation of the law. I also believe you should enforce the law. If you're alert enough to come down on Howard Stern, be alert enough to come down on Sinclair Broadcasting. Thank you.
